Fall SOFA Meeting 11/15/2014

Michael (QSU), Art Motta (MEChA), Austin (Stevenson), August Valera (Crown), Juan Calzadaa (Kresge), Dylan Quitiquit Hoffman (Porter), Simba Khadder (Eight), Fernanda (Oakes), Lance McNeil (Nine).

Meeting called to order at 12:49 PM

**Disc Golf Club:**

My names Marshall and I’m from the disc golf team. Disc golf is new sport based on the ideas of golf. The disc golf team here is a new and emerging club sport. Our goal is that we’re looking to install a nine hold course around campus, it’ll be around OPERS. It has been in the works for 2 years now. The other eight holes for disc golf have been in my backyard for quite a while now. Disc golf has a long history in Santa Cruz. We’re looking to install this course to facilitate that growth of the club and to bring awareness to the sport and provide another fun resource on campus. We have disc golf equipment at OPERS. Many of the staff members here expressed interested in playing, we have a Facebook page and a website for event information. Many students and community members would be stoked to have a disc golf course on campus. This is low cost, but we are asking for university labor money. It will also create jobs. There may be maintenance required in the future. We take any responsibility in cleaning the field. We also coordinate with a youth group that is interested in disc golf. This is a great opportunity to meet people and have a good network. We are co-ed, and no tryouts, we are open to all. Just in March we were competing for the national championship. We have all the equipment for the course, and it is quite a low cost. We are asking for 2000 to cover the university labor, and it probably won’t cover all the costs but we are a self-funding unit. But we do also get funds from OPERS. We have a lot of support from other disc golf clubs and members.

Justin: Did SUA fund discs last year?

Disc Golf Club: Yes they did and I have some in the car and we do have the SUA logo on it.

Juan: Where else are you asking for funding

Disc Golf Club: Merrill, Oakes, and Kresge. We submitted a request to the SFAC.

**Amount Requested: $2000.**

**Red Cross Club**

I’m Cindy Ma and I’m the treasurer for the Red Cross Club. We host blood drives and we also have a boot camp where we train those to help others for natural disasters. Blood drives are important because there is always a need for blood. If you do our boot camp you will be able to help out in natural disasters. We are asking for $700. The boot camp is $250-400 and the blood drives are about $550. We benefit the campus because we offer volunteer opportunities and we...
don’t have a club fee. We are hoping to host two blood drives and one boot camp and possibly a CPR class.

Michael: With blood drives through Red Cross, there are a lot of restrictions on people who cannot give blood, can you provide other students with other ways to give back?

Red Cross Club: You can also volunteer for the event or be in control of the pantry section.

Lance: You said there might be money left over, where would that money go?

Red Cross Club: CPR class.

Amount Requested: $700.

[Food Recess]

Justin: When we’re debating, the thing you need to keep in mind is to think about the funding request as a single thing and to not have any bias and to think if it helps the student body. We are going to go through these in order and we have ten minutes for each one. Once we get to the end of the debate, it is a 2/3rds vote recommendation. Think of it as if we had all the money in the world, how would we fund them, Later we will decide how much we can actually give them. Things to consider: Do these clubs impact students? Have they met their goals in the past? Are they duplicating the effects of other orgs on campus? Do they advocate diversity? Since we have 25 minutes until the food is ready, we will go ahead and start. All the request documents are on the SUA website. The first request is Matchbox Literary Magazine. They asked for $1500.

Dylan: Point of information, who was the presenter?

Justin: Josh Knoll I believe. Any discussion on this funding request? This money is for printing cost.

Dylan: It doesn’t say where else they are getting funding.

Juan: They said they are going to try to get it out to every UC.

Lance: They said they are trying to get some money from senates.

Dylan: Their cost to print is $4000 and they are planning on taking the printing from that and sending it to every UC, but do we want to put in more than our fair share, considering they are asking from nine other student bodies?

Lance: I don’t think they’ve received any budget outside of Santa Cruz.

Juan: Why would we pay for everyone else?

Lance: Maybe to maintain a good relationship we could sponsor a fourth of that.
Dylan: So you think we should fund around $375?

Juan: **Motion to amend to $375.**

Justin: Any seconds? Seeing none **motion dies.**

Dylan: **Motion to fund $1000.**

Simba: **Second.**

Juan: I still think that’s pretty high.

Simba: I don’t think we’re receiving a ninth of the product since they are just trying to send it out to the UCs. I think 1000 is more than fair.

Juan: If it goes to other universities, what if other students think that it is from their own university?

Dylan: I think that the org’s history will speak to its UCSC roots. It will show our university’s legacy, but I think that $1500 is a bit excessive, considering they are asking for funding from other UCs. They are not established though.

Simba: Point of inquiry, how would we decide on that $1000?

Justin: Do a call to question.

Dylan: **Call to question.**

Simba: **Second.**

Juan: **Objection.**

Vote on call to question:

In favor: 6 Opposed: 3 Abstentions: 0 **Call to question fails,** we will continue into debate. Sorry, that is a pass, I thought there were ten people here. When the margin of failure is by one vote I do get to vote.

Dylan: But it’s not by one vote.

Justin: It’s 6 to 3, if it was 7 it would pass, I’m just going to abstain from this, **so the call to question fails.**

Juan: **Amend to $800,** so that way we still pay more than a ninth, but not at the $1000.

Lance: **Second.**
Dylan: **Objection.** I think $1000 is a reasonable amount and I feel this way because this is a creative project and I think that Porter, like Kresge which has creative writing would like to see more funding go into something like this.

Simba: I think one of the reasons that people want to lower it is because other UCs are going to fund them, but in the real world I don’t see that funding because they have their own things going on. I couldn’t imagine the other UCs saying that they are going to be paying a ninth. We are showing support for the creative community.

August: **Motion to extend by 5 minutes.**

Juan: **Second.**

Justin: Seeing no objections, **motion passes.**

Art: Last winter we funded matchbox $1100. Do you know if anyone has the evaluation?

Art: Motion to lower $800 that amount to $0.

Justin: Any seconds? Seeing none **amendment dies.**

Simba: Could you explain what that means?

Art: According to the bylaws, the organizations are supposed to tell us how the money was used.

Justin: Just want to clarify, I simply do not have an answer, I don’t know if they actually filled anything out.

August: It doesn’t say in the minutes that they will be asking for funding, that they are just going to distribute the magazines there. In that case, they’d have to let other UCs get involved.

Dylan: If I remember correctly, they actually said they have other people working under Matchbox at other UCs, and if this means that there are other orgs, they would most likely seek funding.

Justin: If there is not further discussion we are going to go into a vote. The current amount for funding is 800, amended from 1000:

In favor: 1 Opposed: 6 Abstentions: 2, **motion fails.**

Simba: **Call to question.**

Dylan: **Second.**

Art: **Objection.**

Vote on call to question:
In favor: 6 Opposed: 2 Abstentions: 1, call to question passes.

Vote on the funding request, requires a 2/3rds vote.

In favor: 7 Opposed: 1 Abstentions: 1, motion passes.

**Recommending: $1000.**

[Recess]

Justin: Next is the MSA, they are asking $5400.

Simba: The fact that what they wrote was pretty skimpy, they also said they were highly in debt.

Austin: I remember they said they only had $3 in their account.

Lance: I say we put a stipulation. Whether they use it specifically for lodging or anything.

Art: I reserve my right to make a motion, they didn’t make a budget, I move to amend the request to $0.

Simba: Motion to amend to $500.

Juan: Second.

Art: Objection.

Vote on amendment:

In favor: 5 Opposed: 2 Abstention: 1. Motion passes, new amount is $500.

Lance: You’re right we don’t know where the money is going, they have a lot more expenses, and they want to go.

Art: I think that’s beside the point, and we are giving them a blank check and we don’t know where the money is going.

Dylan: Point on info, if a stipulation is added, are they required to comply with that stipulation?

Justin: We don’t reimburse, we give in advance, and they are required to follow any stipulations.

Dylan: In addition, if they don’t follow through with that stipulation, do we take the money back or charge them?

Justin: It’s just something we keep on record.

August: Point of inquiry, SOAR accounts take back money.
Justin: When orgs get money from SUA, they have to spend it in the same year.

Simba: They didn’t seem like they put a lot of effort into their proposal, and since we’re only giving them $500, they might not go to the conference and use it somewhere else.

August: I do believe that they said their budgets in the minutes in their presentation, and this event could help a lot of students at UCSC.

Simba: It shows that because we already lowered the money, it shows that we are all not that comfortable funding them.

Dylan: **Motion to extend time for 5 minutes.**

Lance: **Second.**

Justin: Any objections? Seeing none, **motion passes.**

Lance: I know that there are a set of rules that you have to follow with funding requests, if they don’t follow these rules, do their funding requests still get considered?

Dylan: Right now we are talking about our ideal funding, and we need to decide if this is a good funding request.

Art: To imply that someone had to be in the room to ask questions, that’s ridiculous, anyone can ask a question at any time. If it is not on paper, they could change it anytime.

Lance: **I would like to make a motion to fund $0.**

Juan: **Second.**

August: **Objection.**

Dylan: I think we should stress caution, when the information that is vital to making a decision we need to really consider that.

August: I’ve been hearing a lot of the same sentiments and I **call to question.**

Dylan: **Second.**

Vote to fund $0.

In favor: 6 Opposed: 0 Abstentions: 3, **motion passes.**

**Recommending: $0.**

**Salvadorian Student Union:**
Dylan: Do we know about lodging or how long the conference is? Are they paying for lodging for more than just the amount of the conference?

Michael: I’m not sure what amount I would amend it to, it doesn’t look like they are looking for funding from other bodies, I think they are asking a lot for just this one event.

Simba: I reserve my right to motion, they are having us pay for everything but I would like for this conference to happen. Motion to amend to $1800.

Dylan: Second.

Lance: Motion to stipulation to be spent for airfare.

Michael: Second.

Dylan: Objection, I think we need to have the organizations to have some flexibility, because airfare changes, and there may be money stuck in airfare.

Vote on stipulation:

Simba: Can we add a suggestion to show them why we are giving them 1800?

Justin: I’ll consider that an amendment.

Simba: I motion to amend to add a note that says that we are funding you $1800 to bring in the speakers from El Salvador.

Art: Objection. I think that that recommendation would affect what they were funding for.

Vote on recommendation:
In favor: 7 Opposed: 1 Abstentions: 0, motion passes, note will be added.

Simba: Call to question.

Juan: Second.

Justin: Any objections? Seeing none, call to question passes.

In favor: 9 Opposed: 0 Abstentions: 0, motion passes at $1800.

Recommend: $1800.

Men’s rugby:

Austin: It seems like the men’s rugby team knew what they were talking about. They had a clear vision.
Simba: I am for this a lot because I like the Fall Festival, and I feel that UCSC is missing a link for the hype for sports and they did make it seem like they wanted other clubs and sports to come, and they are organizing everything.

Juan: I like their idea of a festival later in the year, we have Edge of Eden, why not have this for us?

Lance: This is something that anyone can be a part of and tabling can happen so that orgs can open up their doors for the student community.

Dylan: I think that a lot of sports teams got screwed when OPERS were shut down, and this offers them an opportunity to do that in a more spectacular thing. I would recommend to fund it fully.

August: I really like this event and I feel that their presentation was great, and I felt like they were very enthusiastic about their presentation. However, they did not completely show where their money was going. I am totally for this.

Austin: I think while we talk about the potential for the events, that we should keep in mind that they have raised money from rugby games, and I think this would be great for the school.

Dylan: My last point was that I think a festival around a rugby game, because other schools have rugby and UCSC always does something a little bit different.

Art: Reserve my right to make an amendment, I think this event will be great, but they don’t create a budget for this, **move to amend this to $0**.

Justin: Any seconds? Seeing none **amendment dies**.

Juan: **Second**.

Art: **Objection**.

Vote on call to question.

In favor: 7 Opposed: 1 Abstentions: 1

Vote on funding request:

In favor: 7 Opposed: 1 Abstentions: 1, **motion passes**, recommending to fully fund.

**Recommending: $1500.**

**Red Wheelbarrow:**

Dylan: My experience with red wheelbarrow has always been positive, at Porter they took submissions from people from all over the school, but a lot of that comes from Porter, and one
day in the dining hall, there was a red wheelbarrow just sitting in the dining hall with a bunch of the magazines. I think that they are trying to spread themselves to the school.

Juan: I agree with Dylan, they are a literature group and we do have a writing house in Kresge, they were looking for ideas and eager for different ways of outreach. We told them they’d be able to talk to the freshmen.

Art: Last winter they came to SUA and they were funded around $600 out of $900, they did not fill out the evaluation.

Vote on 1200

In favor: 8 Opposed: 1 Abstentions: 0. **Motion passes.**

**Recommending:** $1200.

**Afrikan Black Coalition Planning Committee**

Simba: In their write-up, they were not very clear. I would recommend not funding them the full amount.

Dylan: Last year this org hosted this conference at UCSC, and to the best of my memory it was really well done. They are asking for money to send people to Irvine. Given that, I’m not sure how much money they would really need for that. I don’t know if not having a detailed organization of the budget is that great.

Michael: I don’t feel comfortable with the fact that they are only asking SUA for money, I feel that they should be asking from more funding sources.

Austin: **Motion to amend to $2500.**

Lance: **Second.**

Juan: **Objection.**

Simba: Still think that $2500 is too high.

Lance: Since they are traveling to Irvine, I’m guessing they need money for food and I didn’t see if there was lodging or not.

Simba: I think that since most of us are not sure, I would have liked to see a lot more effort funding request.

Juan: Since they gave us a request that was a little unorganized, I feel like $2500 is a little much.

Dylan: Make a **motion to amend amount to $1200.**
Juan: **Second.**

August: Objection.

Dylan: **Call to question for secondary amendment**

Justin: Any seconds? Seeing none, **motion dies.**

Simba: I still think that $1200 is a bit too high, and I would love for this to happen but I wish they told us how much per person.

Lance: I know that from the amount that they are asking, it will probably cover the whole trip. Just considering those two factors, we could make our amount.

Juan: I feel that giving them at least $1200 is a good amount, considering their original proposal was $5000. Which with 60 members they could still send them.

Dylan: I just want to do some speculation, and that with funding requests this large, they don’t expect to get the entire amount.

Vote of amending $2500 to $1200.

In favor: 6 Opposed: 0 Abstentions: 3, **amendment passes.**

In favor of 5000 to 1200.

In favor: 8 Opposed: 0 Abstention: 1

**Recommending: $1200.**

**Cruz Steppahs**

Simba: I think $220 is a very reasonable amount, **call to question.**

In favor: 7 Opposed: 0 Abstentions: 1, **motion passes,**

**Recommending: $220.**

**Surf Team:**

Dylan: I have concerns of how this club is pursuing diversity in its membership. I understand that surfing requires a lot of money up front to start the activity, the people presenting didn’t present any diversity amongst themselves, and I’m wondering how the club’s making efforts to promote that within itself.
Austin: In addition, it worries me that although they are trying to do beach cleanup days by giving free surf lessons, it worries me that the big thing is for Santa Cruz Pride I think that amount is a bit excessive.

Dylan: I’m not against the surf team, and they were worried about fundraising and keeping on track with school.

Juan: Reserve my right to make a motion to amend $1850 to $0.

Justin: Any seconds? Seeing none motion dies.

Dylan: I motion to amend the amount to $950 to cover the amounts listed for the first tournament the entry fee travel cost and the entry fee of the second entry fee.

August: Second.

Juan: Objection.

Simba: I think it should be a little less because some of these contests, they will not send the new members to them, they only send their good members there. I would prefer to put money where it would affect a large group of people.

Dylan: I rescind my amendment.

Art: Reserve my right to make an amendment, in the past they have been functioning pretty well, but I think that it is good to promote sports activities. I motion for $700.

Juan: Second.

Justin: Any objections? Seeing none, amendment passes. Now we will talk about the main motion of $700.

Simba: A little note, the first competition is in December because we’re paying for the first one and the next one is in February, they can look for funding in the meantime.

Vote on $700.

In favor: 8 Opposed: 0 Abstentions: 1, motion passes.

Recommending: $700.

Indian Student Association:

Simba: I’ve heard really good things about this org and to me they seem quite reputable and they list where all their money is going to. I would recommend funding the full amount.

Art: Reserve my right to make an amendment, I motion to amend to $225.
Juan: **Second.**

Dylan: **Objection.** I think the strength of this funding request is evident and this is open to all students, they are not looking to profit, but we should go a little higher, I would recommend 500.

Art: Wouldn’t we be reimbursing them since their event is next week?

Justin: We cannot consider this funding request because we are not allowed to reimburse organizations.

**Kinetic Poetics Project:**

Michael: Looking over their request, it says the festival is for 16 students and although it is a festival for anyone, I feel like $4000 is excessive for 16 students and two speakers.

Art: I **move to make an amendment to $1430 and add a stipulation that that covers the venue.**

Michael: **Second.**

Juan: **Objection.**

Simba: I like that because we are giving them a place to show their work, but if they want professional performers, there are more cost effective ways to do this kind of thing.

Dylan: I think that the amount suggested is pretty reasonable, but I would be cautious to cut the funding by that much because I think there’s a standard to lowering the value of art, and the part that is going to be sacrificed is the speakers.

Art: I think that we should consider art more, so someone should make an amendment with that.

Juan: **Motion to change to $2431.**

Justin: Any seconds? Seeing none **it dies.**

August: Reserve my right, I like the amount as it is, but I don’t like the stipulation, so **I amend stipulations to suggestions.**

Fernanda: **Second.**

Justin: Any objections? Seeing none **motion passes.**

Dylan: **Call to question.**

Simba: **Second.**

Justin: **Call to question passes,** vote amendment from stipulation to suggestions:
In favor: 9 Opposed: 0 Abstentions: 0, amendment passes.

Vote for $1430 with recommendation that it only is used for the venue.

In favor: 9 Opposed: 0 Abstentions: 0. Motion passes, we are funding $1430 with recommendation that it is only used for venue.

**Recommending: $1430.**

**Fish rap live:**
Dylan: Reserve to make a motion, Fish Rap rocks, call to question.

Fernanda: Second.

In favor 8 Opposed: 1 Abstentions: 0 motion passes.

**Recommending: $590.**

**Predental society**
Austin: Is $800 a lot for toothbrushes?

Simba: They don’t really have anything where they say where the money is going.

Michael: I think that what they mentioned is that they will pass toothbrushes out twice a quarter and twice to homeless shelters. They work with CARE and this would be good for SUA to support.

Dylan: I think that since there is no mention of where the money is going, and we should be consistent with our treatment. I’d suggest $400 ish.

Juan: I reserve my right to make an amendment to amend to $400.

Lance: Second.

Justin: Any objections? Seeing none amendment passes.

Lance: Call to question.

Juan: Second.

Justin: Any objections? Seeing none, call to question passes.

In favor 9 Opposed: 0 Abstentions: 0.

**Recommending: $400.**

**Tangroupe:**
Juan: They did tell us where their money is going, and they did say they would pay for members.

Dylan: Are they going to other sources? Do they need anything else?

Lance: The costs might just be the classes.

Juan: They are asking for money for costumes and shoes.

Dylan: Reserve my right to make a motion, call to question.

Juan: Second.

Art: Objection.

Vote for call to question:

In favor: 7 Opposed: 0 Abstentions: 2 call to question passes.

In favor of funding $400:

In favor: 8 Opposed: 1 Abstentions: 0, motion passes.

Recommending: $400.

Students for Justice in Palestine:

Art: Call to question.

Dylan: Second.

In favor: 8 Opposed: 0 Abstentions: 1

Recommending: $700.

Cycling Team:

Juan: They said they are willing to take anything they can get. Motion to amend to $500.

August: Second.

Justin: Any objections? Seeing none, motion passes.

Vote on $500:

In favor: 9 Opposed: 0 Abstentions: 0. Motion passes.

Recommending: $500.

Chinese Student Association
Dylan: My initial concerns here are that we don’t have a budget here and I believe that they are charging people for this event. If that’s the case, why are we putting money in if they are going to charge a solid amount?

Juan: **I motion to fund $0.**

Lance: **Second.**

Dylan: **Objection.** A lot of Chinese students would benefit from this especially if they are international students and they cannot go home. However, I don’t feel comfortable giving full funding.

Juan: **Rescind my motion.**

Dylan: **Motion to amend to $250.**

Juan: **Second.**

Justin: Any objections? **Amendment passes.**

Vote on $250:

In favor: 6 Opposed: 2 opposed Abstention: 1 abstention

**Recommending** $250.

**Lambda Theta Alpha**

Simba: If I remember correctly, they are keeping 20% of the funding for themselves.

Lance: I see this as more of a party, and I didn’t see any benefit to the students and there was no academic fulfillments that would educate the students.

Dylan: Reserve my right to make an amendment, we did see the event last year and it was a social for Greek life, and if SUA was funding that, there was no academic aspect, it just philanthropic aspect. **I motion to fund $0.**

Juan: **Second.**

August: **Objection.**

Lance: I would like to reiterate that I don’t feel comfortable with funding a group that is just throwing a big party, since that is against what SUA is about.

Art: **Motion to amend that it will be $150 to cover the Stevenson event center.**

Dylan: **Second.**
Juan: **Objection.**

Simba: Like I said, I think that $150 is quite small compared to their fees, and that could easily cover the Stevenson event center.

Juan: They are giving most of their proceeds to charity and I believe they should just put all to charity.

Vote of amending amendment:

In favor: 1  Opposed: 5  Abstentions: 2  **motion fails.**

Dylan: **Call to question.**

Justin: We are going to vote on the primary amount $600 to $0.

In favor: 8  Opposed: 1  Abstentions: 0, **motion passes, we are now discussing $0.**

Funding $0 vote:

In favor: 8  Opposed: 1  Abstentions: 0, **Motion passes.**

**Recommending: $0.**

**Disc Golf team:**

Simba: I know in C8 there are a large amount of players, but I would not be for the full amount.

Dylan: **Motion to amend to $1000.**

Juan: **Second.**

Any objections? Seeing none **amendment passes.**

Juan: I feel like this is a great opportunity. It also adds more variety for our school that only Santa Cruz has.

Austin: I think it would be much more inclusive, the ultimate Frisbee team is super competitive and it is somewhat exclusive. They allow everyone to join and if payers do get their skill up they could be recognized nationally.

Lance: **Call to question.**

Juan: **Second.**

Art: **Objection.**

Vote for call to question.
In favor: 7 Opposed: 1 Abstentions: 0, call to question passes.

Vote on 1000:

In favor: 8 Opposed: 1 Abstentions: 0. **Motion passes.**

**Recommending: 1000.**

**Red Cross Club**

Juan: **Call to question.**

Lance: **Second.**

Justin: Any objections? Seeing none **call to question passes.**

In favor: 7 Opposed: 1 Abstentions: 1 **Motion passes.**

**Recommending $700.**

[Recess]

Justin: All of these orgs add up to less than $14,000. We can do it as is, or we can change it.

Dylan: If we do not touch the leftover money, does it rollover?

Justin: We would have to reallocate the money.

Austin: I reserve my right to make an amendment. Going back to rugby, they had such a strong emphasis, **I propose an amendment to increase to 1750.**

Dylan: Point of information, can we actually do that?

Justin: Let me check the bylaws. The way the process works, from there we have to amend it. I am going to rule that that is allowed.

Juan: **Second.**

Simba: **Objection.**

Art: If we are going to do this, I would consider funding groups we didn’t fund as opposed to give someone more money.

Justin: Before we go into discussion, the intention of this part is to cut when we are over the amount of money that we have.
Dylan: I think that given that we’re not giving the final decision and that the SUA is going to want to make some adjustments, this will allow us some wiggle room so that we don’t have to touch other orgs.

Juan: I feel this is a great opportunity and that they might need a little extra funding for this. I see this more of an all colleges coming together.

Simba: If they ask for more money, I would have given them more, but I can’t bring myself to justify giving one group more than they asked and giving some groups nothing.

Art: Rugby wants to use that money to cover the event itself.

Dylan: Call to question.

Simba: Second.

Justin: Any objections, seeing none the call to question passes.

If in favor of increases rugby’s recommendation from $1500 to $1750

In favor: 2 Opposed: 5 Abstentions: 2 motion fails.

Art: Move to fund Lambda Theta Alpha with the stipulation of the funding only covering the venue.

Dylan: Second.

Juan: Objection

Juan: I feel strongly opposed to this and it feels too much as a party and for the frats.

Art: Lambda Theta Alpha is a sorority, it does have a philanthropic aspect, and we are only funding them for their venue. Whatever they do after that is on their own accord.

Lance: I feel they should have enough money to afford the venue through ticket costs. It’s not like they don’t have the money, I would prefer it to go to a group that needs the money more.

Vote to fund $150 instead of $0 Lambda Theta Alpha:

In favor: 2 Opposed: 5 Abstentions: 2 abstentions motion fails.

Dylan: Motion to approve the recommendations as is.

August: Second.

Juan: Objection.

Juan: I want to give kinetic poetry 5200 more????!??!
If you are in favor of finalizing:

**In Favor: 4 Opposed: 0 Abstentions: 4 abstentions motion passes.**

Total is $13590.

Justin: This is ready to give to SUA and I know that not all of you are members of the assembly just so you can be a resource. It could really help to tell SUA is up. If you’d like to put up a PowerPoint, that would be great. Any other questions?

August: How will this be presented?

Justin: If you as a committee would like to present to the assembly, you can do that, but otherwise I will give a brief summary of what happened during the meeting. Anything else?

Lance: Will we get a copy of the spreadsheet?

Justin: It’s already up on the SUA website.
