Under my duties as a College Ten Representative of the Student Union Assembly, I present my 2017 fall quarter report and evaluation to the Assembly. I will present the duties I have performed throughout the quarter and provide constructive criticism that, in my opinion, would improve the Assembly.

One of my most important duties as a representative is to relay the information presented during SUA meetings to my fellow senators. Through their input, gathered by a discussion or poll, I am able to vote based on the consensus of the group I am tasked with representing. I also try to spread awareness of campus event to the best of my ability not only to my own senate, but the general student population.

The largest improvement that could be made is providing representatives time to interact with each other in a social manner. This would improve relationships and lead to more cohesiveness within the space. Another improvement would be detailing, in a document, the role of representatives and the responsibilities we have so that there would be a shared understanding of what it means to be a representative.

Respectfully,

William Staninger
