Fall Quarter review areas of improvements:

- I believe SUA as a whole governing body, should be promoted and advertised more on campus. I also think it should be easier for more students on campus to become involved in different facets of SUA.
- I think it is problematic that most SUA meetings typically last longer than 11:00 on a school night. I think time should not be extended past five minutes to discuss certain issues on the agenda.
- It would be nice if SUA officers and the chair could be less strict on procedure. These strict regulations make it extremely difficult and intimidating to speak on the assembly floor.
- I believe an individual should not be reprimanded if he or she forgets to address the chair when speaking at SUA meetings.
- I think representatives from each of the ten colleges should have the opportunity to get to know each other better and connect more. This way when SUA meetings take place there will be a sense of community and there will be less isolation as well as awkwardness between all of the colleges.
